Subject Index

Volume 75, July-December 1994

A

Acetylcholine
Multiple Factors Contribute to Acetylcholine-Induced Renal Afferent Arteriolar Vasodilation During Myogenic and Norepinephrine- and KCl-Induced Vasoconstriction: Studies in the Isolated Perfused Hydronephrotic Kidney, 821

Acidosis
Chloride Dependence of pH Modulation by β-Adrenergic Agonist in Rat Cardiomyocytes, 862

α-Actin
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Role of Ca^{2+} and Protein Kinase C in Shear Stress–Induced Actin Depolymerization and Endothelin 1 Gene Expression, 630

Action potentials
Anisotropic Conduction in Monolayers of Neonatal Rat Heart Cells Cultured on Collagen Substrate, 591
Properties of Single Outwardly Rectifying Cl^- Channels in Heart, 789
Voltage-Independent Effects of Extracellular K^+ on the Na^+ Current and Phase 0 of the Action Potential in Isolated Cardiac Myocytes, 491

Activator protein-1
Heparin Decreases Activator Protein-1 Binding to DNA in Part by Posttranslational Modification of Jun B, 15

Adenosine
α_1-Adrenergic Agonists Precondition Rabbit Ischemic Myocardium Independent of Adenosine by Direct Activation of Protein Kinase C, 576

Adenovirus
Catheter-Mediated Pulmonary Vascular Gene Transfer and Expression, 1039

Adhesion
E-Selectin Ligands Mediate Tumor Necrosis Factor–Induced Neutrophil Sequestration and Pulmonary Edema in Guinea Pig Lungs, 955
Two Independent Sets of Monoclonal Antibodies Define Neoepitopes Linked to Soluble Ligand Binding and Leukocyte Adhesion Functions of Activated $\alpha_M\beta_2$, 165

ADP/ATP carrier
Alteration of the Cytosolic-Mitochondrial Distribution of High-Energy Phosphates During Global Myocardial Ischemia May Contribute to Early Contractile Failure, 760

Adrenalectomized rats
Glucocorticoid Induction of Kv1.5 K^+ Channel Gene Expression in Ventricle of Rat Heart, 1006

β-Adrenergic blockade
Mechanisms for Vagal Modulation of Ventricular Repolarization and of Coronary Occlusion–Induced Lethal Arrhythmias in Cats, 722

α_1-Adrenergic receptors
α_1-Adrenergic Agonists Precondition Rabbit Ischemic Myocardium Independent of Adenosine by Direct Activation of Protein Kinase C, 576
Cloning of the Rat α_{1C}-Adrenergic Receptor From Cardiac Myocytes: α_{1C}, α_{1B}, and α_{1D} mRNAs Are Present in Cardiac Myocytes but Not in Cardiac Fibroblasts, 796

α_2-Adrenergic receptors
Effects of Clonidine on the Reflex Cardiovascular Responses and Release of Substance P During Muscle Contraction, 567

β-Adrenergic stimulation
β-Adrenergic Stimulation Disassembles Microtubules in Neonatal Rat Cultured Cardiomyocytes Through Intracellular Ca^{2+} Overload, 324

AE3
Molecular Cloning, Expression, and Chromosomal Localization of Two Isoforms of the AE3 Anion Exchanger From Human Heart, 603

β-Agonists
Targeted Ablation of the Phospholamban Gene Is Associated With Markedly Enhanced Myocardial Contractility and Loss of β-Agonist Stimulation, 401

Aminopeptidase A
Discrepancy Between Plasma and Lung Angiotensin-Converting Enzyme Activity in Experimental Congestive Heart Failure: A Novel Aspect of Endothelium Dysfunction, 454

Angiogenesis
Immunohistochemical Identification of Arteriolar Development Using Markers of Smooth Muscle Differentiation: Evidence That Capillary Arterialization Proceeds From Terminal Arterioles, 520

Angioplasty
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Preparation, Characterization, and Evaluation of a Monoclonal Antibody Against the Rabbit Platelet Glycoprotein IIb/IIIa in an Experimental Angioplasty Model, 268

Angiotensin converting enzyme
Effect of Angiotensin II and Enalapril on Transfer of Low-Density Lipoprotein Into Aortic Intima in Rabbits, 63

Angiotensin II
Dissociation of Vasoconstrictor-Stimulated Basic Fibroblast Growth Factor Expression From Hypertrophic Growth in Cultured Vascular Smooth Muscle Cells: Relevant Roles of Protein Kinase C, 836
Effect of Angiotensin II and Enalapril on Transfer of Low-Density Lipoprotein Into Aortic Intima in Rabbits, 63
Involvement of Na^+-H^+ Antiporter in Regulation of L-type Ca^{2+} Channel Current by Angiotensin II in Rabbit Ventricular Myocytes, 1121

Anion exchange
Molecular Cloning, Expression, and Chromosomal Localization of Two Isoforms of the AE3 Anion Exchanger From Human Heart, 603

Antibodies
Preparation, Characterization, and Evaluation of a Monoclonal Antibody Against the Rabbit Platelet Glycoprotein IIb/IIIa in an Experimental Angioplasty Model, 268
Two Independent Sets of Monoclonal Antibodies Define Neoepitopes Linked to Soluble Ligand Binding and Leukocyte Adhesion Functions of Activated $\alpha_M\beta_2$, 165

Antibody-complement–mediated cell lysis
Surface Staining and Cytotoxic Activity of Heat-Shock Protein 60 Antibody in Stressed Aortic Endothelial Cells, 1078

Apoptosis
Hypoxia Induces Apoptosis With Enhanced Expression of Fas Antigen Messenger RNA in Cultured Neonatal Rat Cardiomyocytes, 426

L-Arginine
Nitric Oxide Influences Neuronal Activity in the Nucleus Tractus Solitarius of Rat Brainstem Slices, 70
Physiological Concentrations of Nitric Oxide Do Not Elicit an Acute Negative Inotropic Effect in Unstimulated Cardiac Muscle, 692

Arrhythmias
Transient Outward Current in Human Ventricular Myocytes of Subepicardial and Subendocardial Origin, 473
Arterial smooth muscle
Active Cytomegalovirus Infection of Arterial Smooth Muscle Cells in Immunocompromised Rats: A Clue to Herpesvirus-Associated Atherogenesis? 214
Arteries
Comparison of Density of Sympathetic Varicosities and Their Closeness to Smooth Muscle Cells in Rabbit Middle Cerebral and Ear Arteries and Their Branches, 916
Smooth Muscle Cell Migration and Matrix Metalloproteinase Expression After Arterial Injury in the Rat, 539
Arteriolar adaptation
Immunohistochemical Identification of Arteriolar Development Using Markers of Smooth Muscle Differentiation: Evidence That Capillary Arterialization Proceeds From Terminal Arterioles, 520
Arteriolar network
Immunohistochemical Identification of Arteriolar Development Using Markers of Smooth Muscle Differentiation: Evidence That Capillary Arterialization Proceeds From Terminal Arterioles, 520
Arterioles
Pertussis Toxin–Sensitive G Protein Mediates Coronary Microvascular Control During Autoregulation and Ischemia in Canine Heart, 556
Arteriosclerosis
Does Platelet-Derived Growth Factor-A Chain Stimulate Proliferation of Arterial Mesenchymal Cells in Human Atherosclerotic Plaques? 410
AT_1 receptor
Involvement of Na^+-H^+ Antiporter in Regulation of L-type Ca^{2+} Channel Current by Angiotensin II in Rabbit Ventricular Myocytes, 1121
Atherosclerosis
Augmented Receptor-Mediated Ca^{2+} Mobilization Causes Supersensitivity of Contractile Response to Serotonin in Atherosclerotic Arteries, 1096
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Effect of Angiotensin II and Enalapril on Transfer of Low-Density Lipoprotein Into Aortic Intima in Rabbits, 63
Surface Staining and Cytotoxic Activity of Heat-Shock Protein 60 Antibody in Stressed Aortic Endothelial Cells, 1078
Atrial natriuretic factor
Discrepancy Between Plasma and Lung Angiotensin-Converting Enzyme Activity in Experimental Congestive Heart Failure: A Novel Aspect of Endothelium Dysfunction, 454
Endomyocardial Gene Expression During Development of Pacing Tachycardia–Induced Heart Failure in the Dog, 615
Atrial natriuretic peptide
Localization of Atrial Natriuretic Peptide in Caveolae of In Situ Atrial Myocytes, 949
Atrial tumor myocytes
K^+ Currents and K^+ Channel mRNA in Cultured Atrial Cardiac Myocytes (AT-1 Cells), 870
Autoimmunity
Rat Dilated Cardiomyopathy After Autoimmune Giant Cell Myocarditis, 278
Autoregulation
Endothelial Cell Storage and Release of Endothelin as a Cardioregulatory Mechanism, 85

B

Balloon angioplasty
A Role for Endogenous Endothelin-1 in Neointimal Formation After Rat Carotid Artery Balloon Angioplasty: Protective Effects of the Novel Nonpeptide Endothelin Receptor Antagonist SB 209670, 190
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Barbiturates
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086
Basal coronary flow
Nonadrenergic Noncholinergic Nerves Regulate Basal Coronary Flow via Release of Capsaicin-Sensitive Neuropeptides in the Rat Heart, 780
Basement membrane
Migration of Cultured Vascular Smooth Muscle Cells Through a Basement Membrane Barrier Requires Type IV Collagenase Activity and Is Inhibited by Cellular Differentiation, 41
Basic fibroblast growth factor
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Dissociation of Vasoconstrictor-Stimulated Basic Fibroblast Growth Factor Expression From Hypertrophic Growth in Cultured Vascular Smooth Muscle Cells: Relevant Roles of Protein Kinase C, 836
Blood viscosity
Resistance to Blood Flow in Microvessels In Vivo, 904
Brain slice
Nitric Oxide Influences Neuronal Activity in the Nucleus Tractus Solitarius of Rat Brainstem Slices, 70

C

c-*fos* mRNA expression
Transforming Growth Factor-β_1 Potentiated α_1-Adrenergic and Stretch-Induced c-*fos* mRNA Expression in Rat Myocardial Cells, 8
^{13}C nuclear magnetic resonance
Effects of Oxidant Exposure on Substrate Utilization and High-Energy Phosphates in Isolated Rat Hearts, 97
Ca^{2+}
Effects of pH_i on Isometric Force and $[Ca^{2+}]_i$ in Porcine Coronary Artery Smooth Muscle, 990
Role of Ca^{2+} and Protein Kinase C in Shear Stress–Induced Actin Depolymerization and Endothelin 1 Gene Expression, 630
Ca^{2+}-activated K^+ channels
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733
Ca^{2+} antagonist
Selective Inhibition of T-type Ca^{2+} Channels by Ro 40-5967, 144
Ca^{2+}-ATPase
Thyroid Hormone–Induced Alterations in Phospholamban Protein Expression: Regulatory Effects on Sarcoplasmic Reticulum Ca^{2+} Transport and Myocardial Relaxation, 245
Ca^{2+} channels
Calcium-Activated Chloride Current in Rabbit Coronary Artery Myocytes, 742
Single Amino Acid Substitutions Within the Ion Permeation Pathway Alter Single-Channel Conductance of the Human L-type Cardiac Ca^{2+} Channel, 315
Ca^{2+} current
Multifunctional Ca^{2+}/Calmodulin-Dependent Protein Kinase Mediates Ca^{2+}-Induced Enhancement of the L-type Ca^{2+} Current in Rabbit Ventricular Myocytes, 854
Ca^{2+} entry
Histamine Induces K^+, Ca^{2+}, and Cl^- Currents in Human Vascular Endothelial Cells: Role of Ionic Currents in Stimulation of Nitric Oxide Biosynthesis, 304
Ca^{2+} homeostasis
Gene Expression of the Cardiac Na^+-Ca^{2+} Exchanger in End-Stage Human Heart Failure, 443
Ca^{2+} overload
β-Adrenergic Stimulation Disassembles Microtubules in Neonatal Rat Cultured Cardiomyocytes Through Intracellular Ca^{2+} Overload, 324
Ca^{2+} release
Ascorbyl Free Radical as a Real-time Marker of Free Radical Generation in Briefly Ischemic and Reperfused Hearts: An Electron Paramagnetic Resonance Study, 601

Cyclic ADP-Ribose Competes With ATP for the Adenine Nucleotide Binding Site on the Cardiac Ryanodine Receptor Ca^{2+}-Release Channel, 596

Ca^{2+}/calmodulin kinase
Multifunctional Ca^{2+}/Calmodulin-Dependent Protein Kinase Mediates Ca^{2+}-Induced Enhancement of the L-type Ca^{2+} Current in Rabbit Ventricular Myocytes, 854

Calcitonin gene-related peptide
Nonadrenergic Noncholinergic Nerves Regulate Basal Coronary Flow via Release of Capsaicin-Sensitive Neuropeptides in the Rat Heart, 780

Calcium-induced calcium release
Calcium-Activated Chloride Current in Rabbit Coronary Artery Myocytes, 742

cAMP
Chloride Dependence of pH Modulation by β-Adrenergic Agonist in Rat Cardiomyocytes, 862

Capillary networks
Heterogeneity of Red Blood Cell Perfusion in Capillary Networks Supplied by a Single Arteriole in Resting Skeletal Muscle, 357

Capillary recruitment
Capillary Perfusion of the Rat Brain Cortex: An In Vivo Confocal Microscopy Study, 55

Capsaicin
Nonadrenergic Noncholinergic Nerves Regulate Basal Coronary Flow via Release of Capsaicin-Sensitive Neuropeptides in the Rat Heart, 780

6-Carboxyfluorescein
Selective Dye and Ionic Permeability of Gap Junction Channels Formed by Connexin45, 483

Cardiac arrhythmias
Properties of Single Outwardly Rectifying Cl^- Channels in Heart, 789

Cardiac contractility
Endothelial Cell Storage and Release of Endothelin as a Cardioregulatory Mechanism, 85
Physiological Concentrations of Nitric Oxide Do Not Elicit an Acute Negative Inotropic Effect in Unstimulated Cardiac Muscle, 692
Targeted Ablation of the Phospholamban Gene Is Associated With Markedly Enhanced Myocardial Contractility and Loss of β-Agonist Stimulation, 401

Cardiac electrophysiology
Effects of III-IV Linker Mutations on Human Heart Na^+ Channel Inactivation Gating, 114

Cardiac excitation-contraction coupling
Ascorbyl Free Radical as a Real-time Marker of Free Radical Generation in Briefly Ischemic and Reperfused Hearts: An Electron Paramagnetic Resonance Study, 601
Cyclic ADP-Ribose Competes With ATP for the Adenine Nucleotide Binding Site on the Cardiac Ryanodine Receptor Ca^{2+}-Release Channel, 596

Cardiac fibroblasts
Cloning of the Rat α_{1C}-Adrenergic Receptor From Cardiac Myocytes: α_{1C}, α_{1B}, and α_{1D} mRNAs Are Present in Cardiac Myocytes but Not in Cardiac Fibroblasts, 796

Cardiac function
Role of Na^+-H^+ Exchange in Mediating Effects of Endothelin-1 on Normal and Ischemic/Reperfused Hearts, 369

Cardiac ganglia
Localization of Muscarinic Receptor mRNAs in Rat Heart and Intrinsic Cardiac Ganglia by In Situ Hybridization, 813

Cardiac hypertrophy
Increased Protein Kinase C and Isozyme Redistribution in Pressure-Overload Cardiac Hypertrophy in the Rat, 926

Cardiac ionic model
Wave-Front Curvature as a Cause of Slow Conduction and Block in Isolated Cardiac Muscle, 1014

Cardiac mechanics
Epicardial Strains in Embryonic Chick Ventricle at Stages 16 Through 24, 896

Cardiac membranes
Localization of Atrial Natriuretic Peptide in Caveolae of In Situ Atrial Myocytes, 949

Cardiac muscle, rat
Quantitative Analysis of Potassium Channel mRNA Expression in Atrial and Ventricular Muscle of Rats, 252
Tropomodulin in Rat Cardiac Muscle: Localization of Protein Is Independent of Messenger RNA Distribution During Myofibrillar Development, 221

Cardiac myocytes
Cloning of the Rat α_{1C}-Adrenergic Receptor From Cardiac Myocytes: α_{1C}, α_{1B}, and α_{1D} mRNAs Are Present in Cardiac Myocytes but Not in Cardiac Fibroblasts, 796
Control of Cardiac Ca^{2+} Levels: Inhibitory Actions of Sphingosine on Ca^{2+} Transients and L-type Ca^{2+} Channel Conductance, 981
Increase of the Delayed Rectifier K^+ and Na^+-K^+ Pump Currents by Hypotonic Solutions in Guinea Pig Cardiac Myocytes, 887
Involvement of Na^+-H^+ Antiporter in Regulation of L-type Ca^{2+} Channel Current by Angiotensin II in Rabbit Ventricular Myocytes, 1121
Multifunctional Ca^{2+}/Calmodulin-Dependent Protein Kinase Mediates Ca^{2+}-Induced Enhancement of the L-type Ca^{2+} Current in Rabbit Ventricular Myocytes, 854
T-Type Ca^{2+} Channels Are Abnormal in Genetically Determined Cardiomyopathic Hamster Hearts, 149

Cardiac myosin
Rat Dilated Cardiomyopathy After Autoimmune Giant Cell Myocarditis, 278

Cardiac output
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086

Cardiolipin
Cardiolipin-Protein Complexes and Initiation of Complement Activation After Coronary Artery Occlusion, 546

Cardiomyocytes
Cardiomyocytes Differentiated In Vitro From Embryonic Stem Cells Developmentally Express Cardiac-Specific Genes and Ionic Currents, 233
Hypoxia Induces Apoptosis With Enhanced Expression of Fas Antigen Messenger RNA in Cultured Neonatal Rat Cardiomyocytes, 426

Cardiomyopathic hamsters
T-Type Ca^{2+} Channels Are Abnormal in Genetically Determined Cardiomyopathic Hamster Hearts, 149

Cardiomyopathy
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156

Cardiovascular development
Epicardial Strains in Embryonic Chick Ventricle at Stages 16 Through 24, 896

Carotid artery
Murine Model of Accelerated Transplant Arteriosclerosis, 199

Cats
Inhibition of Sympathetic Vasoconstriction Is a Major Principle of Vasodilation by Nitric Oxide In Vivo, 1073

Caveolae
Localization of Atrial Natriuretic Peptide in Caveolae of In Situ Atrial Myocytes, 949

Cell culture
Anisotropic Conduction in Monolayers of Neonatal Rat Heart Cells Cultured on Collagen Substrate, 591

Cell cycle
Inhibition of Smooth Muscle Cell Proliferation by Visible Light–Activated Psoralen, 208

Cell growth
Growth-Promoting Effects of Substance P on Endothelial Cells in Vitro: Synergism With Calcitonin Gene-Related Peptide, Insulin, and Plasma Factors, 1113

Cell heterogeneity
Multiple Phenotypically Distinct Smooth Muscle Cell Populations Exist in the Adult and Developing Bovine Pulmonary Arterial Media In Vivo, 669

Cell proliferation
Does Platelet-Derived Growth Factor-A Chain Stimulate Proliferation of Arterial Mesenchymal Cells in Human Atherosclerotic Plaques? 410
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Cell swelling
Increase of the Delayed Rectifier K^+ and Na^+-K^+ Pump Currents by Hypotonic Solutions in Guinea Pig Cardiac Myocytes, 887
Properties of Single Outwardly Rectifying Cl^- Channels in Heart, 789
Cell transfer
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156
Ceramide
Control of Cardiac Ca^{2+} Levels: Inhibitory Actions of Sphingosine on Ca^{2+} Transients and L-type Ca^{2+} Channel Conductance, 981
Cerebral blood flow
Capillary Perfusion of the Rat Brain Cortex: An In Vivo Confocal Microscopy Study, 55
Cerebral microcirculation
Capillary Perfusion of the Rat Brain Cortex: An In Vivo Confocal Microscopy Study, 55
cGMP
Escherichia coli Endotoxin Inhibits Agonist-Mediated Cytosolic Ca^{2+} Mobilization and Nitric Oxide Biosynthesis in Cultured Endothelial Cells, 659
Channel conductance ratio
Selective Dye and Ionic Permeability of Gap Junction Channels Formed by Connexin45, 483
Charybdotoxin
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733
Chemotaxis
Interleukin-8: A Mitogen and Chemoattractant for Vascular Smooth Muscle Cells, 1
Migration of Cultured Vascular Smooth Muscle Cells Through a Basement Membrane Barrier Requires Type IV Collagenase Activity and Is Inhibited by Cellular Differentiation, 41
Chick embryo
Epicardial Strains in Embryonic Chick Ventricle at Stages 16 Through 24, 896
Chick embryonic hearts
Nitric Oxide–Mediated Effects of Interleukin-6 on $[Ca^{2+}]_i$ and Cell Contraction in Cultured Chick Ventricular Myocytes, 285
CHOP cells
Molecular Cloning, Expression, and Chromosomal Localization of Two Isoforms of the AE3 Anion Exchanger From Human Heart, 603
Chromosomal localization
Molecular Cloning, Expression, and Chromosomal Localization of Two Isoforms of the AE3 Anion Exchanger From Human Heart, 603
Cl^- channels
Calcium-Activated Chloride Current in Rabbit Coronary Artery Myocytes, 742
Properties of Single Outwardly Rectifying Cl^- Channels in Heart, 789
Protein Kinase–Dependent Cl^- Currents in Feline Ventricular Myocytes, 133
Cl^- current
Protein Kinase–Dependent Cl^- Currents in Feline Ventricular Myocytes, 133
Cl^--HCO_3^- exchanger
Chloride Dependence of pH Modulation by β-Adrenergic Agonist in Rat Cardiomyocytes, 862
Cl-HCO_3 exchange
DIDS-Sensitive pH_i Regulation in Single Rat Cardiac Myocytes in Nominally HCO_3-Free Conditions, 123
Class III antiarrhythmic agent
Ketanserin Inhibits Depolarization-Activated Outward Potassium Current in Rat Ventricular Myocytes, 711
Clathrin-coated vesicles
Endocytosis and Uptake of Lucifer Yellow by Cultured Atrial Myocytes and Isolated Intact Atria From Adult Rats: Regulation and Subcellular Localization, 335
Cocaine
Cocaine-Induced Microvascular Spasm in Yucatan Miniature Swine: In Vivo and In Vitro Evidence of Spasm, 601
No Subject Heads
Collagen
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Anisotropic Conduction in Monolayers of Neonatal Rat Heart Cells Cultured on Collagen Substrate, 591
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Collagen gel
The Anti-inflammatory Agent α-Trinositol Exerts Its Edema-Preventing Effect Through Modulation of β_1 Integrin Function, 942
Collagenase
Cytokine-Stimulated Human Vascular Smooth Muscle Cells Synthesize a Complement of Enzymes Required for Extracellular Matrix Digestion, 181
Compartmentation of high-energy phosphates
Alteration of the Cytosolic-Mitochondrial Distribution of High-Energy Phosphates During Global Myocardial Ischemia May Contribute to Early Contractile Failure, 760
Complement-mediated injury
Effects of Heparin and *N*-Acetyl Heparin on Ischemia/Reperfusion-Induced Alterations in Myocardial Function in the Rabbit Isolated Heart, 701
Conduction
Voltage Dependence of β-Adrenergic Modulation of Conduction in the Canine Purkinje Fiber, 511
Congestive heart failure
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347
Connective tissue
The Anti-inflammatory Agent α-Trinositol Exerts Its Edema-Preventing Effect Through Modulation of β_1 Integrin Function, 942
Constitutive nitric oxide synthase
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086
Contractile and cytoskeletal protein expression
Multiple Phenotypically Distinct Smooth Muscle Cell Populations Exist in the Adult and Developing Bovine Pulmonary Arterial Media In Vivo, 669
Contractility
Effects of pH_i on Isometric Force and $[Ca^{2+}]_i$ in Porcine Coronary Artery Smooth Muscle, 990
Coronary arteries
Effects of pH_i on Isometric Force and $[Ca^{2+}]_i$ in Porcine Coronary Artery Smooth Muscle, 990
Coronary artery disease
Gene Expression of the Cardiac Na^+-Ca^{2+} Exchanger in End-Stage Human Heart Failure, 443
Coronary artery occlusion
Cardiolipin-Protein Complexes and Initiation of Complement Activation After Coronary Artery Occlusion, 546
Coronary circulation
Pertussis Toxin–Sensitive G Protein Mediates Coronary Microvascular Control During Autoregulation and Ischemia in Canine Heart, 556
Coronary conductance
Novel Approach for Enhancing Atrioventricular Nodal Conduction Delay Mediated by Endogenous Adenosine, 972
Coronary flow
Endothelial Cell Storage and Release of Endothelin as a Cardioregulatory Mechanism, 85

Coronary microcirculation
Diameters of Subendocardial Arterioles and Venules During Prolonged Diastole in Canine Left Ventricles, 393
Cortical hemodynamics
Perfusion Pressure and Volume Status Determine the Microvascular Response of the Rat Kidney to N^G-Monomethyl-L-arginine, 829
Creatine kinase
Effects of Heparin and *N*-Acetyl Heparin on Ischemia/Reperfusion-Induced Alterations in Myocardial Function in the Rabbit Isolated Heart, 701
Critical curvature
Wave-Front Curvature as a Cause of Slow Conduction and Block in Isolated Cardiac Muscle, 1014
Cyclic ADP-ribose
Ascorbyl Free Radical as a Real-time Marker of Free Radical Generation in Briefly Ischemic and Reperfused Hearts: An Electron Paramagnetic Resonance Study, 601
Cyclic ADP-Ribose Competes With ATP for the Adenine Nucleotide Binding Site on the Cardiac Ryanodine Receptor Ca^{2+}-Release Channel, 596
Cyclic nucleotides
Regulation of Blood-Brain Barrier Endothelial Cells by Nitric Oxide, 528
Cyclooxygenase
Hypoxia Stimulates Prostacyclin Synthesis in Newborn Pulmonary Artery Endothelium by Increasing Cyclooxygenase-1 Protein, 33
Cytokines
Cytokine-Stimulated Human Vascular Smooth Muscle Cells Synthesize a Complement of Enzymes Required for Extracellular Matrix Digestion, 181
Cytomegalovirus
Active Cytomegalovirus Infection of Arterial Smooth Muscle Cells in Immunocompromised Rats: A Clue to Herpesvirus-Associated Atherogenesis? 214
Cytoskeleton
β-Adrenergic Stimulation Disassembles Microtubules in Neonatal Rat Cultured Cardiomyocytes Through Intracellular Ca^{2+} Overload, 324
Platelet Tyrosine Kinases and Fibrinogen Receptor Activation, 172

D

Delayed rectifier K^+ current
Increase of the Delayed Rectifier K^+ and Na^+-K^+ Pump Currents by Hypotonic Solutions in Guinea Pig Cardiac Myocytes, 887
Denervation
Glibenclamide Enhances but Pinacidil Reduces Attenuation in Sympathetic Responsiveness After Acute Coronary Artery Occlusion, 379
Des-Arg^9-bradykinin
des-Arg^9-Bradykinin Produces Tone-Dependent Kinin B1 Receptor–Mediated Responses in the Pulmonary Vascular Bed, 1064
Development
Smooth Muscle Myosin Heavy Chain Exclusively Marks the Smooth Muscle Lineage During Mouse Embryogenesis, 803
Dexamethasone
Glucocorticoid Induction of Kv1.5 K^+ Channel Gene Expression in Ventricle of Rat Heart, 1006
2′,7′-Dichlorofluorescein
Selective Dye and Ionic Permeability of Gap Junction Channels Formed by Connexin45, 483
Differentiation
Cardiomyocytes Differentiated In Vitro From Embryonic Stem Cells Developmentally Express Cardiac-Specific Genes and Ionic Currents, 233
Dihydropyridine
Selective Inhibition of T-type Ca^{2+} Channels by Ro 40-5967, 144
Dihydropyridine receptor
Developmental and Tissue-Specific Regulation of Rabbit Skeletal and Cardiac Muscle Calcium Channels Involved in Excitation-Contraction Coupling, 503
Dilated cardiomyopathy
Gene Expression of the Cardiac Na^+-Ca^{2+} Exchanger in End-Stage Human Heart Failure, 443
Rat Dilated Cardiomyopathy After Autoimmune Giant Cell Myocarditis, 278
Relation Between Myocardial Function and Expression of Sarcoplasmic Reticulum Ca^{2+}-ATPase in Failing and Nonfailing Human Myocardium, 434
Diuretics
Block of I_{Ks}, the Slow Component of the Delayed Rectifier K^+ Current, by the Diuretic Agent Indapamide in Guinea Pig Myocytes, 879

E

E-selectin ligands
E-Selectin Ligands Mediate Tumor Necrosis Factor–Induced Neutrophil Sequestration and Pulmonary Edema in Guinea Pig Lungs, 955
Early contractile failure
Alteration of the Cytosolic-Mitochondrial Distribution of High-Energy Phosphates During Global Myocardial Ischemia May Contribute to Early Contractile Failure, 760
EC 3.4.24.11
Neutral Endopeptidase in the Heart: Neutral Endopeptidase Inhibition Prevents Isoproterenol-Induced Myocardial Hypoperfusion in Rats by Reducing Bradykinin Degradation, 770
Efferent sympathetic nerve
Glibenclamide Enhances but Pinacidil Reduces Attenuation in Sympathetic Responsiveness After Acute Coronary Artery Occlusion, 379
Elastin
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Electrophysiology
K^+ Currents and K^+ Channel mRNA in Cultured Atrial Cardiac Myocytes (AT-1 Cells), 870
End-stage cardiac failure
End-Stage Cardiac Failure in Humans Is Coupled With the Induction of Proliferating Cell Nuclear Antigen and Nuclear Mitotic Division in Ventricular Myocytes, 1050
Endocytosis
Endocytosis and Uptake of Lucifer Yellow by Cultured Atrial Myocytes and Isolated Intact Atria From Adult Rats: Regulation and Subcellular Localization, 335
Endosomes
Endocytosis and Uptake of Lucifer Yellow by Cultured Atrial Myocytes and Isolated Intact Atria From Adult Rats: Regulation and Subcellular Localization, 335
Endothelial cells
Endothelial Cell Storage and Release of Endothelin as a Cardioregulatory Mechanism, 85
Growth-Promoting Effects of Substance P on Endothelial Cells in Vitro: Synergism With Calcitonin Gene-Related Peptide, Insulin, and Plasma Factors, 1113
Histamine Induces K^+, Ca^{2+}, and Cl^- Currents in Human Vascular Endothelial Cells: Role of Ionic Currents in Stimulation of Nitric Oxide Biosynthesis, 304
Surface Staining and Cytotoxic Activity of Heat-Shock Protein 60 Antibody in Stressed Aortic Endothelial Cells, 1078
Endothelial regeneration
Beneficial Effect of SPM-5185, a Cysteine-Containing Nitric Oxide Donor, in Rat Carotid Artery Intimal Injury, 77
Endothelin
Endothelial Cell Storage and Release of Endothelin as a Cardioregulatory Mechanism, 85
Regulation of Mitogen-Activated Protein Kinase Cascade in Adult Rat Heart Preparations In Vitro, 932
Endothelin-1
A Role for Endogenous Endothelin-1 in Neointimal Formation After Rat Carotid Artery Balloon Angioplasty: Protective

Effects of the Novel Nonpeptide Endothelin Receptor Antagonist SB 209670, 190
Role of Ca^{2+} and Protein Kinase C in Shear Stress–Induced Actin Depolymerization and Endothelin 1 Gene Expression, 630
Role of Na^+-H^+ Exchange in Mediating Effects of Endothelin-1 on Normal and Ischemic/Reperfused Hearts, 369

Endothelin receptor antagonist
A Role for Endogenous Endothelin-1 in Neointimal Formation After Rat Carotid Artery Balloon Angioplasty: Protective Effects of the Novel Nonpeptide Endothelin Receptor Antagonist SB 209670, 190

Endothelium
Effect of Angiotensin II and Enalapril on Transfer of Low-Density Lipoprotein Into Aortic Intima in Rabbits, 63
Hypoxia Stimulates Prostacyclin Synthesis in Newborn Pulmonary Artery Endothelium by Increasing Cyclooxygenase-1 Protein, 33

Endothelium-derived hyperpolarizing factor
Multiple Factors Contribute to Acetylcholine-Induced Renal Afferent Arteriolar Vasodilation During Myogenic and Norepinephrine- and KCl-Induced Vasoconstriction: Studies in the Isolated Perfused Hydronephrotic Kidney, 821

Endothelium-derived relaxing factor
Beneficial Effect of SPM-5185, a Cysteine-Containing Nitric Oxide Donor, in Rat Carotid Artery Intimal Injury, 77
Escherichia coli Endotoxin Inhibits Agonist-Mediated Cytosolic Ca^{2+} Mobilization and Nitric Oxide Biosynthesis in Cultured Endothelial Cells, 659
Histamine Induces K^+, Ca^{2+}, and Cl^- Currents in Human Vascular Endothelial Cells: Role of Ionic Currents in Stimulation of Nitric Oxide Biosynthesis, 304

Energy metabolism
Role of Na^+-H^+ Exchange in Mediating Effects of Endothelin-1 on Normal and Ischemic/Reperfused Hearts, 369

Enkephalinase
Neutral Endopeptidase in the Heart: Neutral Endopeptidase Inhibition Prevents Isoproterenol-Induced Myocardial Hypoperfusion in Rats by Reducing Bradykinin Degradation, 770

Excitation-contraction coupling
Relation Between Myocardial Function and Expression of Sarcoplasmic Reticulum Ca^{2+}-ATPase in Failing and Nonfailing Human Myocardium, 434

Exercise pressor reflex
Effects of Clonidine on the Reflex Cardiovascular Responses and Release of Substance P During Muscle Contraction, 567

Extracellular matrix
Cytokine-Stimulated Human Vascular Smooth Muscle Cells Synthesize a Complement of Enzymes Required for Extracellular Matrix Digestion, 181
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Migration of Cultured Vascular Smooth Muscle Cells Through a Basement Membrane Barrier Requires Type IV Collagenase Activity and Is Inhibited by Cellular Differentiation, 41

F

Fas antigen
Hypoxia Induces Apoptosis With Enhanced Expression of Fas Antigen Messenger RNA in Cultured Neonatal Rat Cardiomyocytes, 426

Fatty acids
Substrate Competition in Postischemic Myocardium: Effect of Substrate Availability During Reperfusion on Metabolic and Contractile Recovery in Isolated Rat Hearts, 1103

Fibrinogen receptor
Platelet Tyrosine Kinases and Fibrinogen Receptor Activation, 172

Fibroblast growth factor
Differential Regulation of Acidic and Basic Fibroblast Growth Factor Gene Expression in Fibroblast Growth Factor–Treated Rat Aortic Smooth Muscle Cells, 261

Fibronectin
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23

Flow redistribution
Heterogeneity of Red Blood Cell Perfusion in Capillary Networks Supplied by a Single Arteriole in Resting Skeletal Muscle, 357

Fluo 3
Multifunctional Ca^{2+}/Calmodulin-Dependent Protein Kinase Mediates Ca^{2+}-Induced Enhancement of the L-type Ca^{2+} Current in Rabbit Ventricular Myocytes, 854

Fluorescence
Chloride Dependence of pH Modulation by β-Adrenergic Agonist in Rat Cardiomyocytes, 862

Force-frequency relation
Relation Between Myocardial Function and Expression of Sarcoplasmic Reticulum Ca^{2+}-ATPase in Failing and Nonfailing Human Myocardium, 434

Forskolin
Protein Kinase–Dependent Cl^- Currents in Feline Ventricular Myocytes, 133

Free radicals
Effects of Oxidant Exposure on Substrate Utilization and High-Energy Phosphates in Isolated Rat Hearts, 97

Functional neuroimaging
Capillary Perfusion of the Rat Brain Cortex: An In Vivo Confocal Microscopy Study, 55

Fura 2
Escherichia coli Endotoxin Inhibits Agonist-Mediated Cytosolic Ca^{2+} Mobilization and Nitric Oxide Biosynthesis in Cultured Endothelial Cells, 659

G

Gene expression
Catheter-Mediated Pulmonary Vascular Gene Transfer and Expression, 1039
Differential Regulation of Acidic and Basic Fibroblast Growth Factor Gene Expression in Fibroblast Growth Factor–Treated Rat Aortic Smooth Muscle Cells, 261
Endomyocardial Gene Expression During Development of Pacing Tachycardia–Induced Heart Failure in the Dog, 615
Interleukin-8: A Mitogen and Chemoattractant for Vascular Smooth Muscle Cells, 1

Gene regulation
Glucocorticoid Induction of Kv1.5 K^+ Channel Gene Expression in Ventricle of Rat Heart, 1006

Gene targeting
Targeted Ablation of the Phospholamban Gene Is Associated With Markedly Enhanced Myocardial Contractility and Loss of β-Agonist Stimulation, 401

Gene transfer
Catheter-Mediated Pulmonary Vascular Gene Transfer and Expression, 1039

Giant cell
Rat Dilated Cardiomyopathy After Autoimmune Giant Cell Myocarditis, 278

Glibenclamide
Glibenclamide Enhances but Pinacidil Reduces Attenuation in Sympathetic Responsiveness After Acute Coronary Artery Occlusion, 379

Global ischemia
Effects of Heparin and *N*-Acetyl Heparin on Ischemia/Reperfusion-Induced Alterations in Myocardial Function in the Rabbit Isolated Heart, 701

Glomerulus
Increased Glomerular Capillary Pressure Alters Glomerular Cytokine Expression, 844

Glucose
Substrate Competition in Postischemic Myocardium: Effect of Substrate Availability During Reperfusion on Metabolic and Contractile Recovery in Isolated Rat Hearts, 1103

Glycoprotein IIb/IIIa
Platelet Tyrosine Kinases and Fibrinogen Receptor Activation, 172
Preparation, Characterization, and Evaluation of a Monoclonal Antibody Against the Rabbit Platelet Glycoprotein IIb/IIIa in an Experimental Angioplasty Model, 268
Glycosaminoglycans
Effects of Heparin and *N*-Acetyl Heparin on Ischemia/Reperfusion-Induced Alterations in Myocardial Function in the Rabbit Isolated Heart, 701
Guanine nucleotide regulatory protein
Pertussis Toxin–Sensitive G Protein Mediates Coronary Microvascular Control During Autoregulation and Ischemia in Canine Heart, 556
Guinea pigs
Allosteric Enhancer PD 81,723 Acts by Novel Mechanism to Potentiate Cardiac Actions of Adenosine, 961

H

H^+-ATPase
Endocytosis and Uptake of Lucifer Yellow by Cultured Atrial Myocytes and Isolated Intact Atria From Adult Rats: Regulation and Subcellular Localization, 335
Heart
Endocytosis and Uptake of Lucifer Yellow by Cultured Atrial Myocytes and Isolated Intact Atria From Adult Rats: Regulation and Subcellular Localization, 335
Localization of Muscarinic Receptor mRNAs in Rat Heart and Intrinsic Cardiac Ganglia by In Situ Hybridization, 813
Modulation of an Inactivating Human Cardiac K^+ Channel by Protein Kinase C, 999
Heart failure
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Endomyocardial Gene Expression During Development of Pacing Tachycardia–Induced Heart Failure in the Dog, 615
Progressive Ventricular Remodeling in Response to Diffuse Isoproterenol-Induced Myocardial Necrosis in Rats, 105
Relation Between Myocardial Function and Expression of Sarcoplasmic Reticulum Ca^{2+}-ATPase in Failing and Nonfailing Human Myocardium, 434
Heart metabolism
Effects of Oxidant Exposure on Substrate Utilization and High-Energy Phosphates in Isolated Rat Hearts, 97
Heat-shock proteins
Surface Staining and Cytotoxic Activity of Heat-Shock Protein 60 Antibody in Stressed Aortic Endothelial Cells, 1078
Hematocrit
Resistance to Blood Flow in Microvessels In Vivo, 904
High-affinity Ca^{2+} binding
Single Amino Acid Substitutions Within the Ion Permeation Pathway Alter Single-Channel Conductance of the Human L-type Cardiac Ca^{2+} Channel, 315
His bundle
Novel Approach for Enhancing Atrioventricular Nodal Conduction Delay Mediated by Endogenous Adenosine, 972
Hoe 140
des-Arg^9-Bradykinin Produces Tone-Dependent Kinin B1 Receptor–Mediated Responses in the Pulmonary Vascular Bed, 1064
Human heart
End-Stage Cardiac Failure in Humans Is Coupled With the Induction of Proliferating Cell Nuclear Antigen and Nuclear Mitotic Division in Ventricular Myocytes, 1050
Human myocarditis
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156
Human ventricular myocytes
Transient Outward Current in Human Ventricular Myocytes of Subepicardial and Subendocardial Origin, 473
Hyperpolarization
Regulation of Blood-Brain Barrier Endothelial Cells by Nitric Oxide, 528
Hypertension
Regulation of Mitogen-Activated Protein Kinase Cascade in Adult Rat Heart Preparations In Vitro, 932
Hypertrophy
Acute Changes in Myosin Heavy Chain Synthesis Rate in Pressure Versus Volume Overload, 418
Hypoxia
Novel Approach for Enhancing Atrioventricular Nodal Conduction Delay Mediated by Endogenous Adenosine, 972
Hypoxic pulmonary hypertension
Hypoxia Stimulates Prostacyclin Synthesis in Newborn Pulmonary Artery Endothelium by Increasing Cyclooxygenase-1 Protein, 33

I

Immunoblotting
Increased Protein Kinase C and Isozyme Redistribution in Pressure-Overload Cardiac Hypertrophy in the Rat, 926
Immunohistochemical staining
β-Adrenergic Stimulation Disassembles Microtubules in Neonatal Rat Cultured Cardiomyocytes Through Intracellular Ca^{2+} Overload, 324
Impedance
Hemodynamics and Wall Shear Rate in the Abdominal Aorta of Dogs: Effects of Vasoactive Agents, 637
In situ hybridization
Localization of Muscarinic Receptor mRNAs in Rat Heart and Intrinsic Cardiac Ganglia by In Situ Hybridization, 813
Indapamide
Block of I_{Ks}, the Slow Component of the Delayed Rectifier K^+ Current, by the Diuretic Agent Indapamide in Guinea Pig Myocytes, 879
Infarction
Protein Kinase C: Its Role in Ischemic Preconditioning in the Rat, 586
Injury
Smooth Muscle Cell Migration and Matrix Metalloproteinase Expression After Arterial Injury in the Rat, 539
Integrins
Platelet Tyrosine Kinases and Fibrinogen Receptor Activation, 172
The Anti-inflammatory Agent α-Trinositol Exerts Its Edema-Preventing Effect Through Modulation of β_1 Integrin Function, 942
Two Independent Sets of Monoclonal Antibodies Define Neoepitopes Linked to Soluble Ligand Binding and Leukocyte Adhesion Functions of Activated $\alpha_M\beta_2$, 165
Interleukin-6
Nitric Oxide–Mediated Effects of Interleukin-6 on $[Ca^{2+}]_i$ and Cell Contraction in Cultured Chick Ventricular Myocytes, 285
Interleukin-8
Interleukin-8: A Mitogen and Chemoattractant for Vascular Smooth Muscle Cells, 1
Interstitial collagenase
Heparin Decreases Activator Protein-1 Binding to DNA in Part by Posttranslational Modification of Jun B, 15
Interstitium
The Anti-inflammatory Agent α-Trinositol Exerts Its Edema-Preventing Effect Through Modulation of β_1 Integrin Function, 942
Intimal thickening
Different Functions of the Platelet-Derived Growth Factor-α and -β Receptors for the Migration and Proliferation of Cultured Baboon Smooth Muscle Cells, 682
Intracellular Ca^{2+}
Augmented Receptor-Mediated Ca^{2+} Mobilization Causes Supersensitivity of Contractile Response to Serotonin in Atherosclerotic Arteries, 1096
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733

Nitric Oxide–Mediated Effects of Interleukin-6 on $[Ca^{2+}]_i$ and Cell Contraction in Cultured Chick Ventricular Myocytes, 285

Intracellular Na^+
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733
Novel Approach for Enhancing Atrioventricular Nodal Conduction Delay Mediated by Endogenous Adenosine, 972

Ion channel genes
K^+ Currents and K^+ Channel mRNA in Cultured Atrial Cardiac Myocytes (AT-1 Cells), 870

Ion currents
Cardiomyocytes Differentiated In Vitro From Embryonic Stem Cells Developmentally Express Cardiac-Specific Genes and Ionic Currents, 233
K^+ Currents and K^+ Channel mRNA in Cultured Atrial Cardiac Myocytes (AT-1 Cells), 870
Properties of Single Outwardly Rectifying Cl^- Channels in Heart, 789

Ion homeostasis
Regulation of Blood-Brain Barrier Endothelial Cells by Nitric Oxide, 528

Ischemia
Cardiolipin-Protein Complexes and Initiation of Complement Activation After Coronary Artery Occlusion, 546

Ischemia/reperfusion injury
Role of Na^+-H^+ Exchange in Mediating Effects of Endothelin-1 on Normal and Ischemic/Reperfused Hearts, 369

Ischemic cardiomyopathy
Relation Between Myocardial Function and Expression of Sarcoplasmic Reticulum Ca^{2+}-ATPase in Failing and Nonfailing Human Myocardium, 434

Ischemic preconditioning
α_1-Adrenergic Agonists Precondition Rabbit Ischemic Myocardium Independent of Adenosine by Direct Activation of Protein Kinase C, 576
Protein Kinase C: Its Role in Ischemic Preconditioning in the Rat, 586

Isolated cardiac myocytes
Physiological Concentrations of Nitric Oxide Do Not Elicit an Acute Negative Inotropic Effect in Unstimulated Cardiac Muscle, 692

Isolated heart
Allosteric Enhancer PD 81,723 Acts by Novel Mechanism to Potentiate Cardiac Actions of Adenosine, 961

Isolated lung
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347

Isoproterenol
Protein Kinase–Dependent Cl^- Currents in Feline Ventricular Myocytes, 133
Regulation of Mitogen-Activated Protein Kinase Cascade in Adult Rat Heart Preparations In Vitro, 932
Voltage Dependence of β-Adrenergic Modulation of Conduction in the Canine Purkinje Fiber, 511

Isthmus
Wave-Front Curvature as a Cause of Slow Conduction and Block in Isolated Cardiac Muscle, 1014

J

Jun B
Heparin Decreases Activator Protein-1 Binding to DNA in Part by Posttranslational Modification of Jun B, 15

K

K^+ channels
Modulation of an Inactivating Human Cardiac K^+ Channel by Protein Kinase C, 999
Quantitative Analysis of Potassium Channel mRNA Expression in Atrial and Ventricular Muscle of Rats, 252

K^+ current
Block of I_{Ks}, the Slow Component of the Delayed Rectifier K^+ Current, by the Diuretic Agent Indapamide in Guinea Pig Myocytes, 879
Ketanserin Inhibits Depolarization-Activated Outward Potassium Current in Rat Ventricular Myocytes, 711

Kinin B1 receptor
des-Arg^9-Bradykinin Produces Tone-Dependent Kinin B1 Receptor–Mediated Responses in the Pulmonary Vascular Bed, 1064

L

L-type Ca^{2+} channel
Control of Cardiac Ca^{2+} Levels: Inhibitory Actions of Sphingosine on Ca^{2+} Transients and L-type Ca^{2+} Channel Conductance, 981
Involvement of Na^+-H^+ Antiporter in Regulation of L-type Ca^{2+} Channel Current by Angiotensin II in Rabbit Ventricular Myocytes, 1121
T-Type Ca^{2+} Channels Are Abnormal in Genetically Determined Cardiomyopathic Hamster Hearts, 149

Late growth-related genes
End-Stage Cardiac Failure in Humans Is Coupled With the Induction of Proliferating Cell Nuclear Antigen and Nuclear Mitotic Division in Ventricular Myocytes, 1050

Left ventricular volumes
Progressive Ventricular Remodeling in Response to Diffuse Isoproterenol-Induced Myocardial Necrosis in Rats, 105

Left ventricular wall stress
Progressive Ventricular Remodeling in Response to Diffuse Isoproterenol-Induced Myocardial Necrosis in Rats, 105

Leukocytes
Two Independent Sets of Monoclonal Antibodies Define Neoepitopes Linked to Soluble Ligand Binding and Leukocyte Adhesion Functions of Activated $\alpha_M\beta_2$, 165

Lipopolysaccharide
Escherichia coli Endotoxin Inhibits Agonist-Mediated Cytosolic Ca^{2+} Mobilization and Nitric Oxide Biosynthesis in Cultured Endothelial Cells, 659

Lipoprotein
Effect of Angiotensin II and Enalapril on Transfer of Low-Density Lipoprotein Into Aortic Intima in Rabbits, 63

Liposomes
Catheter-Mediated Pulmonary Vascular Gene Transfer and Expression, 1039

Long diastole
Diameters of Subendocardial Arterioles and Venules During Prolonged Diastole in Canine Left Ventricles, 393

Lymphocytes
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156

M

Matrix metalloproteinases
Cytokine-Stimulated Human Vascular Smooth Muscle Cells Synthesize a Complement of Enzymes Required for Extracellular Matrix Digestion, 181
Migration of Cultured Vascular Smooth Muscle Cells Through a Basement Membrane Barrier Requires Type IV Collagenase Activity and Is Inhibited by Cellular Differentiation, 41
Smooth Muscle Cell Migration and Matrix Metalloproteinase Expression After Arterial Injury in the Rat, 539

Membrane permeability
Regulation of Blood-Brain Barrier Endothelial Cells by Nitric Oxide, 528

Membrane Potential
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733

Metabolism
Substrate Competition in Postischemic Myocardium: Effect of Substrate Availability During Reperfusion on Metabolic and Contractile Recovery in Isolated Rat Hearts, 1103

Microcirculation
Heterogeneity of Red Blood Cell Perfusion in Capillary Networks Supplied by a Single Arteriole in Resting Skeletal Muscle, 357

Pertussis Toxin–Sensitive G Protein Mediates Coronary Microvascular Control During Autoregulation and Ischemia in Canine Heart, 556

Microvascular growth
Immunohistochemical Identification of Arteriolar Development Using Markers of Smooth Muscle Differentiation: Evidence That Capillary Arterialization Proceeds From Terminal Arterioles, 520

Microvascular networks
Resistance to Blood Flow in Microvessels In Vivo, 904

Migration
Different Functions of the Platelet-Derived Growth Factor-α and -β Receptors for the Migration and Proliferation of Cultured Baboon Smooth Muscle Cells, 682

Mitochondrial control
Cardiac High-Energy Phosphates Adapt Faster Than Oxygen Consumption to Changes in Heart Rate, 751

Mitochondrial function
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086

Mitogen
Interleukin-8: A Mitogen and Chemoattractant for Vascular Smooth Muscle Cells, 1

N^G-Monomethyl-L-arginine
Nitric Oxide Influences Neuronal Activity in the Nucleus Tractus Solitarius of Rat Brainstem Slices, 70
Perfusion Pressure and Volume Status Determine the Microvascular Response of the Rat Kidney to N^G-Monomethyl-L-arginine, 829

Morphometry
Comparison of Density of Sympathetic Varicosities and Their Closeness to Smooth Muscle Cells in Rabbit Middle Cerebral and Ear Arteries and Their Branches, 916

Mouse
Murine Model of Accelerated Transplant Arteriosclerosis, 199
Smooth Muscle Myosin Heavy Chain Exclusively Marks the Smooth Muscle Lineage During Mouse Embryogenesis, 803

Mouse embryonic stem cells
Cardiomyocytes Differentiated In Vitro From Embryonic Stem Cells Developmentally Express Cardiac-Specific Genes and Ionic Currents, 233

mRNA
Localization of Muscarinic Receptor mRNAs in Rat Heart and Intrinsic Cardiac Ganglia by In Situ Hybridization, 813

mRNA expression
Quantitative Analysis of Potassium Channel mRNA Expression in Atrial and Ventricular Muscle of Rats, 252

mRNA localization
Tropomodulin in Rat Cardiac Muscle: Localization of Protein Is Independent of Messenger RNA Distribution During Myofibrillar Development, 221

Muscarinic receptor
Localization of Muscarinic Receptor mRNAs in Rat Heart and Intrinsic Cardiac Ganglia by In Situ Hybridization, 813

Muscle development
Developmental and Tissue-Specific Regulation of Rabbit Skeletal and Cardiac Muscle Calcium Channels Involved in Excitation-Contraction Coupling, 503

Myocardial blood flow
Neutral Endopeptidase in the Heart: Neutral Endopeptidase Inhibition Prevents Isoproterenol-Induced Myocardial Hypoperfusion in Rats by Reducing Bradykinin Degradation, 770

Myocardial energy metabolism
Cardiac High-Energy Phosphates Adapt Faster Than Oxygen Consumption to Changes in Heart Rate, 751

Myocardial gene expression
Gene Expression of the Cardiac Na^+-Ca^{2+} Exchanger in End-Stage Human Heart Failure, 443

Myocardial infarction
Discrepancy Between Plasma and Lung Angiotensin-Converting Enzyme Activity in Experimental Congestive Heart Failure: A Novel Aspect of Endothelium Dysfunction, 454
Glibenclamide Enhances but Pinacidil Reduces Attenuation in Sympathetic Responsiveness After Acute Coronary Artery Occlusion, 379

Myocardial ischemia
Alteration of the Cytosolic-Mitochondrial Distribution of High-Energy Phosphates During Global Myocardial Ischemia May Contribute to Early Contractile Failure, 760
Neutral Endopeptidase in the Heart: Neutral Endopeptidase Inhibition Prevents Isoproterenol-Induced Myocardial Hypoperfusion in Rats by Reducing Bradykinin Degradation, 770

Myocardial protection
Protein Kinase C: Its Role in Ischemic Preconditioning in the Rat, 586

Myocardial strain
Epicardial Strains in Embryonic Chick Ventricle at Stages 16 Through 24, 896

Myocarditis
Rat Dilated Cardiomyopathy After Autoimmune Giant Cell Myocarditis, 278
Reduced Unloaded Sarcomere Shortening Velocity and a Shift to a Slower Myosin Isoform in Acute Murine Coxsackievirus Myocarditis, 462
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156

Myocyte hyperplasia
End-Stage Cardiac Failure in Humans Is Coupled With the Induction of Proliferating Cell Nuclear Antigen and Nuclear Mitotic Division in Ventricular Myocytes, 1050

Myocyte nuclear mitotic division
End-Stage Cardiac Failure in Humans Is Coupled With the Induction of Proliferating Cell Nuclear Antigen and Nuclear Mitotic Division in Ventricular Myocytes, 1050

Myocytes
Ketanserin Inhibits Depolarization-Activated Outward Potassium Current in Rat Ventricular Myocytes, 711

Myofibrils
Tropomodulin in Rat Cardiac Muscle: Localization of Protein Is Independent of Messenger RNA Distribution During Myofibrillar Development, 221

Myogenesis
Smooth Muscle Myosin Heavy Chain Exclusively Marks the Smooth Muscle Lineage During Mouse Embryogenesis, 803

Myosin
Reduced Unloaded Sarcomere Shortening Velocity and a Shift to a Slower Myosin Isoform in Acute Murine Coxsackievirus Myocarditis, 462

Myosin heavy chain
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Smooth Muscle Myosin Heavy Chain Exclusively Marks the Smooth Muscle Lineage During Mouse Embryogenesis, 803

Myosin light chain
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23

Myosin synthesis rate
Acute Changes in Myosin Heavy Chain Synthesis Rate in Pressure Versus Volume Overload, 418

N

Na-HCO_3 cotransport
DIDS-Sensitive pH_i Regulation in Single Rat Cardiac Myocytes in Nominally HCO_3-Free Conditions, 123

Na^+ channels
Effects of III-IV Linker Mutations on Human Heart Na^+ Channel Inactivation Gating, 114
Voltage-Independent Effects of Extracellular K^+ on the Na^+ Current and Phase 0 of the Action Potential in Isolated Cardiac Myocytes, 491

Na^+ currents
Voltage Dependence of β-Adrenergic Modulation of Conduction in the Canine Purkinje Fiber, 511
Voltage-Independent Effects of Extracellular K^+ on the Na^+ Current and Phase 0 of the Action Potential in Isolated Cardiac Myocytes, 491
Na^+-H^+ antiport
Chloride Dependence of pH Modulation by β-Adrenergic Agonist in Rat Cardiomyocytes, 862
Na^+-H^+ antiporter
Involvement of Na^+-H^+ Antiporter in Regulation of L-type Ca^{2+} Channel Current by Angiotensin II in Rabbit Ventricular Myocytes, 1121
Na^+-H^+ exchange
DIDS-Sensitive pH_i Regulation in Single Rat Cardiac Myocytes in Nominally HCO_3-Free Conditions, 123
Role of Na^+-H^+ Exchange in Mediating Effects of Endothelin-1 on Normal and Ischemic/Reperfused Hearts, 369
Na^+-K^+ pump current
Increase of the Delayed Rectifier K^+ and Na^+-K^+ Pump Currents by Hypotonic Solutions in Guinea Pig Cardiac Myocytes, 887
Needle-probe videomicroscope
Diameters of Subendocardial Arterioles and Venules During Prolonged Diastole in Canine Left Ventricles, 393
Negative inotropic effect
Nitric Oxide–Mediated Effects of Interleukin-6 on $[Ca^{2+}]_i$ and Cell Contraction in Cultured Chick Ventricular Myocytes, 285
Neoepitopes
Two Independent Sets of Monoclonal Antibodies Define Neoepitopes Linked to Soluble Ligand Binding and Leukocyte Adhesion Functions of Activated $\alpha_M\beta_2$, 165
Neointima
Active Cytomegalovirus Infection of Arterial Smooth Muscle Cells in Immunocompromised Rats: A Clue to Herpesvirus-Associated Atherogenesis? 214
Murine Model of Accelerated Transplant Arteriosclerosis, 199
Neointimal formation
A Role for Endogenous Endothelin-1 in Neointimal Formation After Rat Carotid Artery Balloon Angioplasty: Protective Effects of the Novel Nonpeptide Endothelin Receptor Antagonist SB 209670, 190
Neurogenic vasoconstriction
Inhibition of Sympathetic Vasoconstriction Is a Major Principle of Vasodilation by Nitric Oxide In Vivo, 1073
Neuropeptides
Growth-Promoting Effects of Substance P on Endothelial Cells in Vitro: Synergism With Calcitonin Gene-Related Peptide, Insulin, and Plasma Factors, 1113
Neutral endopeptidase
Discrepancy Between Plasma and Lung Angiotensin-Converting Enzyme Activity in Experimental Congestive Heart Failure: A Novel Aspect of Endothelium Dysfunction, 454
Neutrophils
E-Selectin Ligands Mediate Tumor Necrosis Factor–Induced Neutrophil Sequestration and Pulmonary Edema in Guinea Pig Lungs, 955
Nisoldipine
Selective Inhibition of T-type Ca^{2+} Channels by Ro 40-5967, 144
Nitr 5
Multifunctional Ca^{2+}/Calmodulin-Dependent Protein Kinase Mediates Ca^{2+}-Induced Enhancement of the L-type Ca^{2+} Current in Rabbit Ventricular Myocytes, 854
Nitric oxide
des-Arg^9-Bradykinin Produces Tone-Dependent Kinin B1 Receptor–Mediated Responses in the Pulmonary Vascular Bed, 1064
Inhibition of Sympathetic Vasoconstriction Is a Major Principle of Vasodilation by Nitric Oxide In Vivo, 1073
Multiple Factors Contribute to Acetylcholine-Induced Renal Afferent Arteriolar Vasodilation During Myogenic and Norepinephrine- and KCl-Induced Vasoconstriction: Studies in the Isolated Perfused Hydronephrotic Kidney, 821
Nitric Oxide Influences Neuronal Activity in the Nucleus Tractus Solitarius of Rat Brainstem Slices, 70
Nitric Oxide–Mediated Effects of Interleukin-6 on $[Ca^{2+}]_i$ and Cell Contraction in Cultured Chick Ventricular Myocytes, 285
Perfusion Pressure and Volume Status Determine the Microvascular Response of the Rat Kidney to N^G-Monomethyl-L-arginine, 829
Nitric oxide donor
Beneficial Effect of SPM-5185, a Cysteine-Containing Nitric Oxide Donor, in Rat Carotid Artery Intimal Injury, 77
Physiological Concentrations of Nitric Oxide Do Not Elicit an Acute Negative Inotropic Effect in Unstimulated Cardiac Muscle, 692
Nitric oxide synthase
Escherichia coli Endotoxin Inhibits Agonist-Mediated Cytosolic Ca^{2+} Mobilization and Nitric Oxide Biosynthesis in Cultured Endothelial Cells, 659
Nitro-L-arginine
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086
N^G-Nitro-L-arginine methyl ester
Inhibition of Sympathetic Vasoconstriction Is a Major Principle of Vasodilation by Nitric Oxide In Vivo, 1073
Nonadrenergic noncholinergic nerve
Nonadrenergic Noncholinergic Nerves Regulate Basal Coronary Flow via Release of Capsaicin-Sensitive Neuropeptides in the Rat Heart, 780
Nonmyocytes
Hypoxia Induces Apoptosis With Enhanced Expression of Fas Antigen Messenger RNA in Cultured Neonatal Rat Cardiomyocytes, 426
Norepinephrine
Regulation of Mitogen-Activated Protein Kinase Cascade in Adult Rat Heart Preparations In Vitro, 932
Nucleus tractus solitarius
Nitric Oxide Influences Neuronal Activity in the Nucleus Tractus Solitarius of Rat Brainstem Slices, 70

O

Organ transplantation
Murine Model of Accelerated Transplant Arteriosclerosis, 199
Oxidative phosphorylation
Cardiac High-Energy Phosphates Adapt Faster Than Oxygen Consumption to Changes in Heart Rate, 751
Oxygen extraction
Role of Nitric Oxide in the Regulation of Oxygen Consumption in Conscious Dogs, 1086

P

^{31}P nuclear magnetic resonance
Effects of Oxidant Exposure on Substrate Utilization and High-Energy Phosphates in Isolated Rat Hearts, 97
^{31}P nuclear magnetic resonance spectroscopy
Cardiac High-Energy Phosphates Adapt Faster Than Oxygen Consumption to Changes in Heart Rate, 751
Papillary muscles
Physiological Concentrations of Nitric Oxide Do Not Elicit an Acute Negative Inotropic Effect in Unstimulated Cardiac Muscle, 692
Passive stretch
Effects of Clonidine on the Reflex Cardiovascular Responses and Release of Substance P During Muscle Contraction, 567
Patch clamp
Cardiomyocytes Differentiated In Vitro From Embryonic Stem Cells Developmentally Express Cardiac-Specific Genes and Ionic Currents, 233
Diminished Transient Outward Currents in Rat Hypertrophied Ventricular Myocytes, 296
Histamine Induces K^+, Ca^{2+}, and Cl^- Currents in Human Vascular Endothelial Cells: Role of Ionic Currents in Stimulation of Nitric Oxide Biosynthesis, 304
Ketanserin Inhibits Depolarization-Activated Outward Potassium Current in Rat Ventricular Myocytes, 711

Peripheral resistance
Resistance to Blood Flow in Microvessels In Vivo, 904
Permeability
Selective Dye and Ionic Permeability of Gap Junction Channels Formed by Connexin45, 483
Pertussis toxin–sensitive GTP regulatory protein
Mechanisms for Vagal Modulation of Ventricular Repolarization and of Coronary Occlusion–Induced Lethal Arrhythmias in Cats, 722
pH
Effects of pH_i on Isometric Force and $[Ca^{2+}]_i$ in Porcine Coronary Artery Smooth Muscle, 990
Phorbol esters
Dissociation of Vasoconstrictor-Stimulated Basic Fibroblast Growth Factor Expression From Hypertrophic Growth in Cultured Vascular Smooth Muscle Cells: Relevant Roles of Protein Kinase C, 836
Protein Kinase–Dependent Cl^- Currents in Feline Ventricular Myocytes, 133
Regulation of Mitogen-Activated Protein Kinase Cascade in Adult Rat Heart Preparations In Vitro, 932
Phosphocreatine shuttle
Alteration of the Cytosolic-Mitochondrial Distribution of High-Energy Phosphates During Global Myocardial Ischemia May Contribute to Early Contractile Failure, 760
Phospholamban
Targeted Ablation of the Phospholamban Gene Is Associated With Markedly Enhanced Myocardial Contractility and Loss of β-Agonist Stimulation, 401
Thyroid Hormone–Induced Alterations in Phospholamban Protein Expression: Regulatory Effects on Sarcoplasmic Reticulum Ca^{2+} Transport and Myocardial Relaxation, 245
Photoadducts
Inhibition of Smooth Muscle Cell Proliferation by Visible Light–Activated Psoralen, 208
Pinacidil
Glibenclamide Enhances but Pinacidil Reduces Attenuation in Sympathetic Responsiveness After Acute Coronary Artery Occlusion, 379
Pituitary
Pituitary-Specific Transcription Factor (Pit-1) Binding Site in the Human Renin Gene 5′-Flanking DNA Stimulates Promoter Activity in Placental Cell Primary Cultures and Pituitary Lactosomatotropic Cell Lines, 624
Placenta
Pituitary-Specific Transcription Factor (Pit-1) Binding Site in the Human Renin Gene 5′-Flanking DNA Stimulates Promoter Activity in Placental Cell Primary Cultures and Pituitary Lactosomatotropic Cell Lines, 624
Platelet-derived growth factor
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Does Platelet-Derived Growth Factor-A Chain Stimulate Proliferation of Arterial Mesenchymal Cells in Human Atherosclerotic Plaques? 410
Increased Glomerular Capillary Pressure Alters Glomerular Cytokine Expression, 844
Regulation of Smooth Muscle α-Actin Promoter by Vasopressin and Platelet-Derived Growth Factor in Rat Aortic Vascular Smooth Muscle Cells, 1126
The Anti-inflammatory Agent α-Trinositol Exerts Its Edema-Preventing Effect Through Modulation of β_1 Integrin Function, 942
Platelet-derived growth factor receptors
Different Functions of the Platelet-Derived Growth Factor-α and -β Receptors for the Migration and Proliferation of Cultured Baboon Smooth Muscle Cells, 682
Platelets
Platelet Tyrosine Kinases and Fibrinogen Receptor Activation, 172
Preparation, Characterization, and Evaluation of a Monoclonal Antibody Against the Rabbit Platelet Glycoprotein IIb/IIIa in an Experimental Angioplasty Model, 268
Pore structure
Single Amino Acid Substitutions Within the Ion Permeation Pathway Alter Single-Channel Conductance of the Human L-type Cardiac Ca^{2+} Channel, 315
Posttranslational phosphorylation
Heparin Decreases Activator Protein-1 Binding to DNA in Part by Posttranslational Modification of Jun B, 15
Prazosin
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347
Pressure drop
Resistance to Blood Flow in Microvessels In Vivo, 904
Pressure overload
Acute Changes in Myosin Heavy Chain Synthesis Rate in Pressure Versus Volume Overload, 418
Diminished Transient Outward Currents in Rat Hypertrophied Ventricular Myocytes, 296
Pressure-volume relation
Progressive Ventricular Remodeling in Response to Diffuse Isoproterenol-Induced Myocardial Necrosis in Rats, 105
Proliferation
Different Functions of the Platelet-Derived Growth Factor-α and -β Receptors for the Migration and Proliferation of Cultured Baboon Smooth Muscle Cells, 682
Propranolol
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347
Prostacyclin
Hypoxia Stimulates Prostacyclin Synthesis in Newborn Pulmonary Artery Endothelium by Increasing Cyclooxygenase-1 Protein, 33
Prostaglandin E_2
Hypoxia Stimulates Prostacyclin Synthesis in Newborn Pulmonary Artery Endothelium by Increasing Cyclooxygenase-1 Protein, 33
Prostaglandins
Multiple Factors Contribute to Acetylcholine-Induced Renal Afferent Arteriolar Vasodilation During Myogenic and Norepinephrine- and KCl-Induced Vasoconstriction: Studies in the Isolated Perfused Hydronephrotic Kidney, 821
Protein kinase C
α_1-Adrenergic Agonists Precondition Rabbit Ischemic Myocardium Independent of Adenosine by Direct Activation of Protein Kinase C, 576
Differential Regulation of Acidic and Basic Fibroblast Growth Factor Gene Expression in Fibroblast Growth Factor–Treated Rat Aortic Smooth Muscle Cells, 261
Dissociation of Vasoconstrictor-Stimulated Basic Fibroblast Growth Factor Expression From Hypertrophic Growth in Cultured Vascular Smooth Muscle Cells: Relevant Roles of Protein Kinase C, 836
Increased Protein Kinase C and Isozyme Redistribution in Pressure-Overload Cardiac Hypertrophy in the Rat, 926
Modulation of an Inactivating Human Cardiac K^+ Channel by Protein Kinase C, 999
Protein Kinase C: Its Role in Ischemic Preconditioning in the Rat, 586
Role of Ca^{2+} and Protein Kinase C in Shear Stress–Induced Actin Depolymerization and Endothelin 1 Gene Expression, 630
Transforming Growth Factor-β_1 Potentiated α_1-Adrenergic and Stretch-Induced c-***fos*** **mRNA Expression in Rat Myocardial Cells, 8**
Protein kinase C isoforms
Increased Protein Kinase C and Isozyme Redistribution in Pressure-Overload Cardiac Hypertrophy in the Rat, 926
Psoralen
Inhibition of Smooth Muscle Cell Proliferation by Visible Light–Activated Psoralen, 208
Pulmonary artery
Catheter-Mediated Pulmonary Vascular Gene Transfer and Expression, 1039

Pulmonary circulation
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347
Pulmonary hypertension
Multiple Phenotypically Distinct Smooth Muscle Cell Populations Exist in the Adult and Developing Bovine Pulmonary Arterial Media In Vivo, 669
Pulmonary vascular bed
des-Arg^9-Bradykinin Produces Tone-Dependent Kinin B1 Receptor–Mediated Responses in the Pulmonary Vascular Bed, 1064
Pulmonary venous hypertension
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347

R

Rabbit hearts
Cardiac High-Energy Phosphates Adapt Faster Than Oxygen Consumption to Changes in Heart Rate, 751
Radioligand binding
Allosteric Enhancer PD 81,723 Acts by Novel Mechanism to Potentiate Cardiac Actions of Adenosine, 961
Rat myocytes
Quantitative Analysis of Potassium Channel mRNA Expression in Atrial and Ventricular Muscle of Rats, 252
Rats
Smooth Muscle Cell Migration and Matrix Metalloproteinase Expression After Arterial Injury in the Rat, 539
Thyroid Hormone–Induced Alterations in Phospholamban Protein Expression: Regulatory Effects on Sarcoplasmic Reticulum Ca^{2+} Transport and Myocardial Relaxation, 245
Renal microcirculation
Multiple Factors Contribute to Acetylcholine-Induced Renal Afferent Arteriolar Vasodilation During Myogenic and Norepinephrine- and KCl-Induced Vasoconstriction: Studies in the Isolated Perfused Hydronephrotic Kidney, 821
Renin-angiotensin system
Discrepancy Between Plasma and Lung Angiotensin-Converting Enzyme Activity in Experimental Congestive Heart Failure: A Novel Aspect of Endothelium Dysfunction, 454
Renin gene expression
Pituitary-Specific Transcription Factor (Pit-1) Binding Site in the Human Renin Gene 5′-Flanking DNA Stimulates Promoter Activity in Placental Cell Primary Cultures and Pituitary Lactosomatotropic Cell Lines, 624
Reperfusion
Substrate Competition in Postischemic Myocardium: Effect of Substrate Availability During Reperfusion on Metabolic and Contractile Recovery in Isolated Rat Hearts, 1103
Reperfusion injury
Substrate Competition in Postischemic Myocardium: Effect of Substrate Availability During Reperfusion on Metabolic and Contractile Recovery in Isolated Rat Hearts, 1103
Restenosis
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Extracellular Matrix Remodeling After Balloon Angioplasty Injury in a Rabbit Model of Restenosis, 650
Preparation, Characterization, and Evaluation of a Monoclonal Antibody Against the Rabbit Platelet Glycoprotein IIb/IIIa in an Experimental Angioplasty Model, 268
Ryanodine receptors
Ascorbyl Free Radical as a Real-time Marker of Free Radical Generation in Briefly Ischemic and Reperfused Hearts: An Electron Paramagnetic Resonance Study, 601
Control of Cardiac Ca^{2+} Levels: Inhibitory Actions of Sphingosine on Ca^{2+} Transients and L-type Ca^{2+} Channel Conductance, 981
Cyclic ADP-Ribose Competes With ATP for the Adenine Nucleotide Binding Site on the Cardiac Ryanodine Receptor Ca^{2+}-Release Channel, 596
Developmental and Tissue-Specific Regulation of Rabbit Skeletal and Cardiac Muscle Calcium Channels Involved in Excitation-Contraction Coupling, 503

S

Safety factor
Wave-Front Curvature as a Cause of Slow Conduction and Block in Isolated Cardiac Muscle, 1014
Sarcomeres
Reduced Unloaded Sarcomere Shortening Velocity and a Shift to a Slower Myosin Isoform in Acute Murine Coxsackievirus Myocarditis, 462
Sarcoplasmic reticulum
Developmental and Tissue-Specific Regulation of Rabbit Skeletal and Cardiac Muscle Calcium Channels Involved in Excitation-Contraction Coupling, 503
Targeted Ablation of the Phospholamban Gene Is Associated With Markedly Enhanced Myocardial Contractility and Loss of β-Agonist Stimulation, 401
Thyroid Hormone–Induced Alterations in Phospholamban Protein Expression: Regulatory Effects on Sarcoplasmic Reticulum Ca^{2+} Transport and Myocardial Relaxation, 245
Sarcoplasmic reticulum Ca^{2+}-ATPase
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
SB 209670
A Role for Endogenous Endothelin-1 in Neointimal Formation After Rat Carotid Artery Balloon Angioplasty: Protective Effects of the Novel Nonpeptide Endothelin Receptor Antagonist SB 209670, 190
Scanning electron microscopy
Beneficial Effect of SPM-5185, a Cysteine-Containing Nitric Oxide Donor, in Rat Carotid Artery Intimal Injury, 77
Serotonin
Augmented Receptor-Mediated Ca^{2+} Mobilization Causes Supersensitivity of Contractile Response to Serotonin in Atherosclerotic Arteries, 1096
Severe combined immunodeficiency mice
Transfer of Human Myocarditis Into Severe Combined Immunodeficiency Mice, 156
Shear stress
Role of Ca^{2+} and Protein Kinase C in Shear Stress–Induced Actin Depolymerization and Endothelin 1 Gene Expression, 630
Sialyl–Lewis X
E-Selectin Ligands Mediate Tumor Necrosis Factor–Induced Neutrophil Sequestration and Pulmonary Edema in Guinea Pig Lungs, 955
Signal transduction
Localization of Atrial Natriuretic Peptide in Caveolae of In Situ Atrial Myocytes, 949
Single channel
Diminished Transient Outward Currents in Rat Hypertrophied Ventricular Myocytes, 296
Single-channel conductance
Single Amino Acid Substitutions Within the Ion Permeation Pathway Alter Single-Channel Conductance of the Human L-type Cardiac Ca^{2+} Channel, 315
Site-directed mutagenesis
Effects of III-IV Linker Mutations on Human Heart Na^+ Channel Inactivation Gating, 114
Single Amino Acid Substitutions Within the Ion Permeation Pathway Alter Single-Channel Conductance of the Human L-type Cardiac Ca^{2+} Channel, 315
Slack-release method
Reduced Unloaded Sarcomere Shortening Velocity and a Shift to a Slower Myosin Isoform in Acute Murine Coxsackievirus Myocarditis, 462
Smooth muscle
Effects of pH_i on Isometric Force and $[Ca^{2+}]_i$ in Porcine Coronary Artery Smooth Muscle, 990
Smooth Muscle Myosin Heavy Chain Exclusively Marks the Smooth Muscle Lineage During Mouse Embryogenesis, 803

Smooth muscle α-actin
Regulation of Smooth Muscle α-Actin Promoter by Vasopressin and Platelet-Derived Growth Factor in Rat Aortic Vascular Smooth Muscle Cells, 1126
Smooth muscle cell proliferation
Beneficial Effect of SPM-5185, a Cysteine-Containing Nitric Oxide Donor, in Rat Carotid Artery Intimal Injury, 77
Smooth muscle cells
Cytokine-Stimulated Human Vascular Smooth Muscle Cells Synthesize a Complement of Enzymes Required for Extracellular Matrix Digestion, 181
Different Functions of the Platelet-Derived Growth Factor-α and -β Receptors for the Migration and Proliferation of Cultured Baboon Smooth Muscle Cells, 682
Differential Regulation of Acidic and Basic Fibroblast Growth Factor Gene Expression in Fibroblast Growth Factor–Treated Rat Aortic Smooth Muscle Cells, 261
Inhibition of Smooth Muscle Cell Proliferation by Visible Light–Activated Psoralen, 208
Interleukin-8: A Mitogen and Chemoattractant for Vascular Smooth Muscle Cells, 1
Migration of Cultured Vascular Smooth Muscle Cells Through a Basement Membrane Barrier Requires Type IV Collagenase Activity and Is Inhibited by Cellular Differentiation, 41
Smooth muscle development
Immunohistochemical Identification of Arteriolar Development Using Markers of Smooth Muscle Differentiation: Evidence That Capillary Arterialization Proceeds From Terminal Arterioles, 520
Spatial heterogeneity
Heterogeneity of Red Blood Cell Perfusion in Capillary Networks Supplied by a Single Arteriole in Resting Skeletal Muscle, 357
Sphingosine
Control of Cardiac Ca^{2+} Levels: Inhibitory Actions of Sphingosine on Ca^{2+} Transients and L-type Ca^{2+} Channel Conductance, 981
Spontaneously hypertensive rats
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Stretch dependence
Localization of Atrial Natriuretic Peptide in Caveolae of In Situ Atrial Myocytes, 949
Stretch stimulation
Transforming Growth Factor-β_1 Potentiated α_1-Adrenergic and Stretch-Induced c-*fos* **mRNA Expression in Rat Myocardial Cells, 8**
Subconductance state
Selective Dye and Ionic Permeability of Gap Junction Channels Formed by Connexin45, 483
Subendocardial arterioles
Diameters of Subendocardial Arterioles and Venules During Prolonged Diastole in Canine Left Ventricles, 393
Subendocardial venules
Diameters of Subendocardial Arterioles and Venules During Prolonged Diastole in Canine Left Ventricles, 393
Substance P
Growth-Promoting Effects of Substance P on Endothelial Cells in Vitro: Synergism With Calcitonin Gene-Related Peptide, Insulin, and Plasma Factors, 1113
Neutral Endopeptidase in the Heart: Neutral Endopeptidase Inhibition Prevents Isoproterenol-Induced Myocardial Hypoperfusion in Rats by Reducing Bradykinin Degradation, 770
Nonadrenergic Noncholinergic Nerves Regulate Basal Coronary Flow via Release of Capsaicin-Sensitive Neuropeptides in the Rat Heart, 780
Surface expression
Surface Staining and Cytotoxic Activity of Heat-Shock Protein 60 Antibody in Stressed Aortic Endothelial Cells, 1078
Sympathetic nerve activity
Effects of Clonidine on the Reflex Cardiovascular Responses and Release of Substance P During Muscle Contraction, 567
Inhibition of Sympathetic Vasoconstriction Is a Major Principle of Vasodilation by Nitric Oxide In Vivo, 1073
Sympathetic varicosities
Comparison of Density of Sympathetic Varicosities and Their Closeness to Smooth Muscle Cells in Rabbit Middle Cerebral and Ear Arteries and Their Branches, 916

T

T-type Ca^{2+} channel
T-Type Ca^{2+} Channels Are Abnormal in Genetically Determined Cardiomyopathic Hamster Hearts, 149
Tachykinins
Growth-Promoting Effects of Substance P on Endothelial Cells in Vitro: Synergism With Calcitonin Gene-Related Peptide, Insulin, and Plasma Factors, 1113
Temporal heterogeneity
Heterogeneity of Red Blood Cell Perfusion in Capillary Networks Supplied by a Single Arteriole in Resting Skeletal Muscle, 357
Thrombin
Characterization of Thrombin Receptor Expression During Vascular Lesion Formation, 1029
Thromboxane
Dissociation of Vasoconstrictor-Stimulated Basic Fibroblast Growth Factor Expression From Hypertrophic Growth in Cultured Vascular Smooth Muscle Cells: Relevant Roles of Protein Kinase C, 836
Thyroid hormone
Thyroid Hormone–Induced Alterations in Phospholamban Protein Expression: Regulatory Effects on Sarcoplasmic Reticulum Ca^{2+} Transport and Myocardial Relaxation, 245
Tissue calcium
Effects of Heparin and *N*-Acetyl Heparin on Ischemia/Reperfusion-Induced Alterations in Myocardial Function in the Rabbit Isolated Heart, 701
Tissue-type plasminogen activator
Heparin Decreases Activator Protein-1 Binding to DNA in Part by Posttranslational Modification of Jun B, 15
Transforming growth factor-β
Alterations in Cardiac Gene Expression During the Transition From Stable Hypertrophy to Heart Failure: Marked Upregulation of Genes Encoding Extracellular Matrix Components, 23
Increased Glomerular Capillary Pressure Alters Glomerular Cytokine Expression, 844
Transforming Growth Factor-β_1 Potentiated α_1-Adrenergic and Stretch-Induced c-*fos* **mRNA Expression in Rat Myocardial Cells, 8**
Transgenic mice
K^+ Currents and K^+ Channel mRNA in Cultured Atrial Cardiac Myocytes (AT-1 Cells), 870
Transient outward current
Modulation of an Inactivating Human Cardiac K^+ Channel by Protein Kinase C, 999
Transient Outward Current in Human Ventricular Myocytes of Subepicardial and Subendocardial Origin, 473
Transplant arteriosclerosis
Murine Model of Accelerated Transplant Arteriosclerosis, 199
Tropomodulin
Tropomodulin in Rat Cardiac Muscle: Localization of Protein Is Independent of Messenger RNA Distribution During Myofibrillar Development, 221
Tubulin
β-Adrenergic Stimulation Disassembles Microtubules in Neonatal Rat Cultured Cardiomyocytes Through Intracellular Ca^{2+} Overload, 324

U

Ultrastructure
Comparison of Density of Sympathetic Varicosities and Their Closeness to Smooth Muscle Cells in Rabbit Middle Cerebral and Ear Arteries and Their Branches, 916

Unloaded sarcomere shortening velocity
Reduced Unloaded Sarcomere Shortening Velocity and a Shift to a Slower Myosin Isoform in Acute Murine Coxsackievirus Myocarditis, 462

V

Vagal stimulation
Mechanisms for Vagal Modulation of Ventricular Repolarization and of Coronary Occlusion–Induced Lethal Arrhythmias in Cats, 722
Vasa recta hemodynamics
Perfusion Pressure and Volume Status Determine the Microvascular Response of the Rat Kidney to N^G-Monomethyl-L-arginine, 829
Vascular development
Multiple Phenotypically Distinct Smooth Muscle Cell Populations Exist in the Adult and Developing Bovine Pulmonary Arterial Media In Vivo, 669
Vascular injury
E-Selectin Ligands Mediate Tumor Necrosis Factor–Induced Neutrophil Sequestration and Pulmonary Edema in Guinea Pig Lungs, 955
Vascular muscle
Selective Inhibition of T-type Ca^{2+} Channels by Ro 40-5967, 144
Vascular reactivity
Augmented Receptor-Mediated Ca^{2+} Mobilization Causes Supersensitivity of Contractile Response to Serotonin in Atherosclerotic Arteries, 1096
Vascular smooth muscle
Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types, 733
Vascular smooth muscle cells
Calcium-Activated Chloride Current in Rabbit Coronary Artery Myocytes, 742
"Different Electrical Responses to Vasoactive Agonists in Morphologically Distinct Smooth Muscle Cell Types" Naylor et al p. 733
Multiple Phenotypically Distinct Smooth Muscle Cell Populations Exist in the Adult and Developing Bovine Pulmonary Arterial Media In Vivo, 669
Regulation of Smooth Muscle α-Actin Promoter by Vasopressin and Platelet-Derived Growth Factor in Rat Aortic Vascular Smooth Muscle Cells, 1126
Vasoconstrictors
Hemodynamics and Wall Shear Rate in the Abdominal Aorta of Dogs: Effects of Vasoactive Agents, 637
Vasodilation
Pertussis Toxin–Sensitive G Protein Mediates Coronary Microvascular Control During Autoregulation and Ischemia in Canine Heart, 556
Vasodilators
Hemodynamics and Wall Shear Rate in the Abdominal Aorta of Dogs: Effects of Vasoactive Agents, 637
Selective Inhibition of T-type Ca^{2+} Channels by Ro 40-5967, 144
Vasopressin
Regulation of Smooth Muscle α-Actin Promoter by Vasopressin and Platelet-Derived Growth Factor in Rat Aortic Vascular Smooth Muscle Cells, 1126
Ventricular fibrillation
Mechanisms for Vagal Modulation of Ventricular Repolarization and of Coronary Occlusion–Induced Lethal Arrhythmias in Cats, 722
Ventricular myocytes
Anisotropic Conduction in Monolayers of Neonatal Rat Heart Cells Cultured on Collagen Substrate, 591
Video imaging
Wave-Front Curvature as a Cause of Slow Conduction and Block in Isolated Cardiac Muscle, 1014
Visible light
Inhibition of Smooth Muscle Cell Proliferation by Visible Light–Activated Psoralen, 208
Voltage-gated K^+ channels
Glucocorticoid Induction of Kv1.5 K^+ Channel Gene Expression in Ventricle of Rat Heart, 1006
Voltage-sensitive dyes
Anisotropic Conduction in Monolayers of Neonatal Rat Heart Cells Cultured on Collagen Substrate, 591
Volume overload
Acute Changes in Myosin Heavy Chain Synthesis Rate in Pressure Versus Volume Overload, 418

W

Wall shear rate
Hemodynamics and Wall Shear Rate in the Abdominal Aorta of Dogs: Effects of Vasoactive Agents, 637
Watanabe heritable hyperlipidemic rabbits
Augmented Receptor-Mediated Ca^{2+} Mobilization Causes Supersensitivity of Contractile Response to Serotonin in Atherosclerotic Arteries, 1096

X

***Xenopus* oocytes**
Effects of III-IV Linker Mutations on Human Heart Na^+ Channel Inactivation Gating, 114
Molecular Cloning, Expression, and Chromosomal Localization of Two Isoforms of the AE3 Anion Exchanger From Human Heart, 603

Y

Yohimbine
Altered Pulmonary Microvascular Reactivity to Norepinephrine in Canine Pacing-Induced Heart Failure, 347
Effects of Clonidine on the Reflex Cardiovascular Responses and Release of Substance P During Muscle Contraction, 567
